GUARDE ESTAS INSTRUCCIONES

4. Do not use an extension cord to operate appliance.

5. **Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the appliance to an authorized service center for examination and repair.**

6. Keep the cord away from heated surfaces.

7. Do not pull, twist, or wrap line cord around appliance, even during storage.

8. Never use while sleeping.

9. Never drop or insert any object into any opening.

10. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.

11. This straightener is hot when in use. Do not let eyes or bare skin touch heated surfaces.

12. **Do not place the heated straightener directly on any surface or on the appliance power cord while it is hot or plugged in.**

13. Before plugging in read the information about dual voltage contained in the instruction section of this manual.

14. Do not attempt to touch the housing of your appliance near the straightening plates as it is hot when in use.

OPERATING INSTRUCTIONS

This straightening iron appliance is intended for household use. This unit is designed to operate at 120/240 volts AC. Use on Alternating Current (50/60 hertz) only.

This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.

DUAL VOLTAGE

This straightening iron will automatically adjust to the proper voltage. Use an adapter plug with correct configuration, prior to use in outlet.

DE USO DE ALISADO

STRAIGHTENING BASICS

Plug the straightening iron cord into any household outlet (120/240V). Press ON button. Red and green lights will blink alternately. When ready to use, green light will remain on and red light will turn off. The iron will heat up very quickly. To turn off, press OFF button. Green light will go off. Red light will remain on as a safety precaution to indicate the iron is still plugged in. Never leave your straightening iron on and unattended. However, should you fail to turn the unit off, it will shut itself off automatically within 60 minutes.

WARNING: The straightening iron's ceramic-coated plates will get very hot within a few seconds and should not be placed in contact with the skin after the straightening iron has been turned on.

Start with a hair section that is 2" wide and no more than 1/2" thick. Open the iron and place a hair section between the two hot plates, close to the scalp. Trap hair between the plates by firmly squeezing the handles together. While maintaining the tension, slowly pull the unit down along the hair section toward the end of hair. At the end of hair section, release the pressure on the handle and allow the hair section to slide out. Repeat process on additional sections of hair until you achieve the hair style you desire. It may be necessary to repeat process on certain areas, depending on the texture of your hair.

Some experience is necessary when learning to use this straightening iron. After using iron several times, you will learn the ideal way to straighten and style your hair easily.

NOTE: Please refer to the temperature setting guide for heat settings.

SAVE THESE INSTRUCTIONS

4. Do not use an extension cord to operate appliance.

5. **Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the appliance to an authorized service center for examination and repair.**

6. Keep the cord away from heated surfaces.

7. Do not pull, twist, or wrap line cord around appliance, even during storage.

8. Never use while sleeping.

9. Never drop or insert any object into any opening.

10. Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.

11. This straightener is hot when in use. Do not let eyes or bare skin touch heated surfaces.

12. **Do not place the heated straightener directly on any surface or on the appliance power cord while it is hot or plugged in.**

13. Before plugging in read the information about dual voltage contained in the instruction section of this manual.

14. Do not attempt to touch the housing of your appliance near the straightening plates as it is hot when in use.

IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING KEEP AWAY FROM WATER

DANGER - Any appliance is electrically live even when the switch is off. To reduce the risk of death by electric shock:

1. Always unplug appliance immediately after using.
2. Do not use while bathing or in a shower.
3. Do not place or store appliance where it can fall or be pulled into a tub or sink.
4. Do not place in, or drop into water or other liquid.
5. If an appliance falls into water, unplug it immediately. **Do not reach into the water.**

WARNING - To reduce the risk of burns, electrocution, fire, or injury to persons:

1. **This appliance should never be left unattended when plugged in.**
2. This appliance should not be used by, on, or near children or individuals with certain disabilities.
3. Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
